Paris, France | 06 41 67 70 72 | gervydamien@gmail.com | [Linkedin](#) | [Portfolio](#)

SKILLS

Front-end : HTML, CSS, Tailwind, React, TypeScript

Tools: git, Github, Figma

EXPERIENCE

Coreoz

Nov 2020 - Apr 2021

Fullstack engineer intern

Hybrid

- During a business application redesign project : developed React components and webpages based on the mock-ups made by the designer. Used Sass for the styling and React / Typescript.
- For an internal tool : fixed bugs on the backend, implemented a new graphic charter and migrated part of the JavaScript code to TypeScript.
- Developed and integrated REST APIs in Java / Spring.

Factorythings

Aug 2018 - Jan 2019

Backend engineer intern

Full remote

- Developed the API, in Node.js, of a dashboard app that displays graphs and visual representations of critical industrial data measured with IoT devices. Implemented the communication protocols for those sensors..
- Participated in the architecture decisions together with the project manager, and integrated those decisions into the code.
- Fixed bugs on the React UI.

PROJECTS

Portfolio website

Jun 2025 - Jul 2025

[Link](#) | [Repo](#) | HTML, CSS, React, TypeScript

- Designed and wrote a landing page website in React.
- Set up a responsive design, lightweight animations, and image size optimization.
- Implementer an english/french localization with i18next as well as a dark mode.
- Deployed with Github Pages.

Application tracking app

May 2025 - May 2025

[Repo](#) | HTML, CSS, Python, Django

- Wrote a fullstack Django application to keep track of my job applications and document my search.
- Set up an adequate data model to arrange the relevant info about applications and companies.

EDUCATION

University of technology of Troyes

Sep 2015 - Sep 2021

Network and telecommunications engineer

TOEIC

Dec 2018

C1 English proficiency - scored 980
